About Us

The New Jersey de jure Assembly was created by like-minded people who wanted the best for New Jersey. That includes the best in education, family services, child protection, economic opportunities, health & well-being, environmental & governmental system.

We believe elected officials should be held accountable, to represent the best interest of the people who elected them to the position. If you believe the same, please join us in making New Jersey the best place to live.

WHAT DOES THIS MEAN TO YOU?

As stated by the Constitution, a de jure government is the legal, legitimate government of a state and what is meant by our First Amendment Right to Assemble.

We have the right to hold our elected officials accountable through assembling; for our Freedom to thrive it is necessary for your voice to be heard.

"Freedom and Liberty cannot exist without Individual Responsibility. Failure to exercise Individual Responsibility forfeits your right to self-governance and delivers it to Government which, through force, will set the parameters of your life."

Brian Wilson

OUR MISSION

Our Mission is to accept the responsibility to govern ourselves and work peacefully towards common goals that empower and protect ourselves, the planet, and all life on Earth.

OUR VISION

We believe in leveraging our skills to collectively restore humanity, embracing our differences and coming together for a greater good.

Our work involves rebuilding facets of community projects, from health & wellness to nature preservation & restoration.

OUR WORK

The New Jersey de jure Assembly is where people come together to create a better New Jersey & hold their elected officials accountable to serving "The People" who elected them.

It is time for the people to stand up, assemble & work towards a permanent solution of taking back their rightful seat at the table when it comes to decision making & restoring power to The People.
